INSTRUCTIONS

Check our online classroom regarding the **due dates** for each Homework Assignment.

Remember that I do accept late Homework Assignments. The Syllabus describes the “penalty” for submitting late work – but it **always** is to your advantage to do so!

Homework assignments **must be posted in our online classroom**. You must post an **MS Word .doc or .docx file**. Other file formats, including .pdf, are not acceptable. At the top of each page be certain to place the following:

MATH 101 – Sect WA2 – Assignment # – First Name Last Name – Date – Page #

Only use one side of a page. **Place a box around the final answer for each problem**. Use a dark horizontal line to separate one exercise from another. You **MUST** show your work. Exercises submitted without showing the work will earn zero points. Type/write/print legibly using a dark pen or pencil – if I cannot read your work, it will earn zero points. Use only one side of a page. I do give partial credit for attempts at solutions and for incorrect solutions.
